

September 14<sup>th</sup>, 2017

Recently, Equifax, one of the three national consumer credit reporting agencies, announced a major data breach. This breach affects approximately 143 million Americans. This is what we know according to Equifax: the data breach occurred May – July 2017, and the information stolen includes consumers' personally identifiable information, including names, Social Security numbers, dates of birth, addresses and, in some cases, driver's license numbers. Approximately 209,000 credit card numbers and dispute documents with personally identifiable information for approximately 182,000 consumers were also stolen. There is no evidence of unauthorized access to consumers' credit reporting databases.

To be clear, *Dakota Community Bank & Trust* was not compromised and your information was not stolen from our bank. However, Dakota Community Bank & Trust takes the security of our customer information very seriously, and we are providing you with the information we know about this massive breach and the steps you can take to protect your personally identifiable information if you so desire.
