

CARD MANAGER

Allows cardholders to access their bank account, manage their cards, view a digital card, and track their spending seamlessly using the mobile banking app. Easily access CardManager by going into the mobile banking app and clicking the card icon which is labeled "Cards".

- **ACTIVATE CARD**

Instead of calling the phone number which was on the sticker of your new card, you can click this link to activate your new card.

- **CARD ON/OFF**

Cardholders may use the Card On/Off feature to place a temporary block on a card. When the card is turned off the system denies all card transactions other than recurring payments or credits. To turn the card on and off, login in to the mobile banking app, select the card icon and slide.

- **RECENT TRANSACTIONS**

View the most recent transactions or click VIEW ALL to view all of them. You can click on the transaction to get more information on the payment.

- **CARD DETAILS**

View Digital Card: You'll be able to view an image of your card to get the card number, expiration date and CVV. This will allow you to make purchases online when the card is not in your possession. It will also make it easier to push it to Apple, Google or Samsung Pay.

Spending Insights: This option allows you to evaluate what, when and where transactions are occurring.

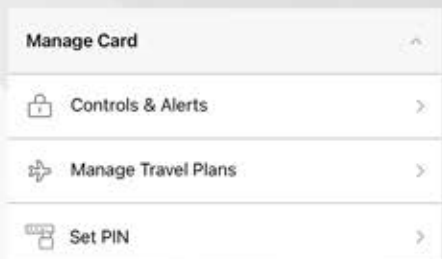

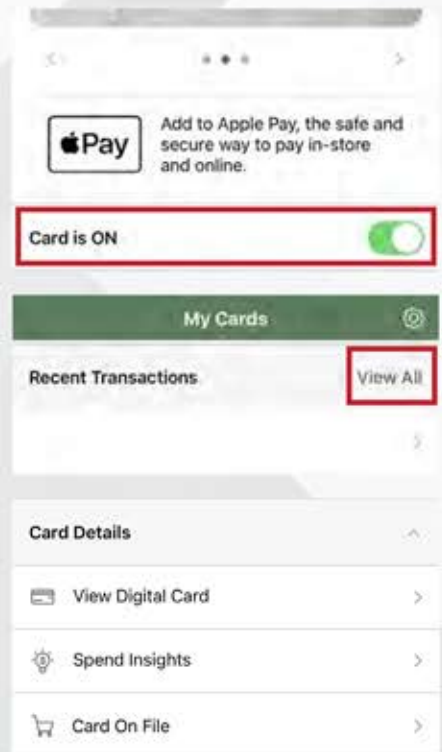

Card on File: This option helps you keep tabs of all the merchants who have stored your card on their file for convenient one-time payments, recurring charges or future purchases. You can contact the merchant or service provider if you want to update or remove your card information from their file.

- **MANAGE CARD**

Controls & Alerts: Receive notifications and set controls on where, when and how your card is used. You can set it up by Locations, Merchant Types, Transaction Types or Spend Limits.

Manage Travel Plans: Add countries and U.S. states you may visit so we can help keep your card secure.

Set PIN: Set up a new PIN or update to different PIN for your card.

There are two videos on our website that provide detailed information on how to use the Card Manager features. You can find them by going to our website www.dakotacommunitybank.com, hover over "Online Resources" and click "Mobile Banking".
